

MANOJ KUMAR B N

+91 9019978928 manojkumarmanu32100@gmail.com LinkedIn GitHub Kolar, India

PROFESSIONAL SUMMARY

Motivated Computer Science Engineering graduate with skills in software development, AI, machine learning, and quality assurance. Proficient in Java, Python, SQL with hands-on experience in developing AI-powered applications, database-driven solutions and debugging. Strong problem-solving abilities and a focus on delivering reliable, high-quality software solutions.

WORK EXPERIENCE

Data Science Intern Internship <i>Advaith Innovation and Incubation Foundation</i>	Feb 2026 - May 2026 On-site • Kolar
- Developed a Hospital Patient Analysis Dashboard to monitor patient admissions, demographics, treatment trends, and healthcare metrics. - Collected, cleaned, and analyzed healthcare data using Python and Pandas. - Performed Exploratory Data Analysis (EDA) to identify patterns and generate actionable insights. - Created interactive visualizations and dashboards using Plotly/Power BI. - Prepared reports and presented findings to support data-driven decision-making.	

EDUCATION

C Byregowda Institute of Technology Kolar <i>B.Tech CSE</i>	2022 - 2026 CGPA : 8.2/10
Morarji Desai Residential PU College Chintamani <i>Pre-University</i>	2020 - 2022 CGPA : 70%
Morarji Desai Residential School Chintamani <i>SSLC</i>	2019 - 2020 CGPA : 86%

PROJECTS

Hospital patient analysis dashboard

- Built a Hospital Patient Analysis Dashboard using Python, Pandas, Plotly, and Streamlit.
 - Performed data cleaning, preprocessing, and exploratory data analysis on healthcare datasets.
 - Developed interactive visualizations to track patient trends and support data-driven decisions.
- Technologies / Tools Used :** Python, Pandas, NumPy, Streamlit, Data Analysis, Data Visualization, EDA

AI Chess Game Playing

- Developed an AI-powered Chess Game in Python with intelligent move selection strategic gameplay capabilities.
 - Designed and integrated game logic, move validation, board state management using OOP
 - Improved gameplay performance by reducing search complexity and enhancing move evaluation efficiency.
- Technologies / Tools Used :** Python, Flask, SQLite, SQLAlchemy, HTML, CSS, JavaScript, Pygame, OOP

Face Recognition Based Attendance System

- Developed a Face Recognition Based Attendance System to attendance tracking using computer vision techniques.
 - Integrated attendance recording and database management functionalities for efficient data storage and retrieval.
 - Enhanced system accuracy and reduced manual effort by automating attendance monitoring and report generation.
- Technologies / Tools Used :** Python, Face Recognition, Machine Learning, NumPy, Pandas, SQLite/MySQL

SKILLS

Programming Languages :	C, C++, Python, SQL
Frameworks & Libraries :	Flask, React, Python, NumPy, Pandas, SQLite, Machine Learning, Data Structures & Algorithms (DSA)
Tools & Platforms :	GitHub
Databases :	MySQL
Soft Skills :	Communication, Leadership, Problem Solving, Time Management, Teamwork

CERTIFICATIONS

Data Science Internship Completion Certificate <i>Advaith Innovation and Incubation Foundation</i>	2026
Generative AI for All <i>Infosys Springboard</i>	2025
Front End Development-HTML <i>Great Learning</i>	2025
HTML5-2022 Certification <i>Infosys Springboard</i>	2025
